# Water Structure System (WS System)

## Structured Water (HALO charged water)

Did you know that you can use the HALO System to create HALO Structured Water? HALO Structured Water is a powerful H<sub>2</sub>O molecular structure that you can drink on a daily basis to reap the benefits of our botanical and herbal extract systems.

The photons (light) pass through the vials that contain botanical extracts and pick up the harmonic vibratory signature of the botanicals. It acts as a delivery system for the botanical resonance, which is then carried to the water, restructuring the molecules into micro-clusters. This is a physical action that takes place at the molecular level. All you have to do is drink to your health!

- HALO Structured Water helps with detoxification.
- Proper hydration facilitates better oxygenation to the body at the cellular level.
- Helps with flushing out toxins from the body and increase cellular communication.
- HALO Structured Water effective delivery of nutrients.
- Consider your total HALO water intake as part of your daily therapy.
- HALO Structured Water helps with mental clarity.

HALO structured water can be used for any consumable water use. It is your choice what type of water you use for personal consumption: Alkaline, tap, spring, filtered, reverse osmosis, purified, etc.). As long as it is clear H<sub>2</sub>O, you will be able to structure it with the WS vial. The container you use does not have any effect on the molecular format of the micro clusters once your water is structured. Water will remain structured for an indefinite amount of time.
